

CHARACTER ASSET WORKSHOP

MAY 19TH, 2018
9AM – 11AM

We all know about our character defects...

But how much do we know about their opposite – our character assets? In this workshop you will learn the difference between “defects” and “shortcomings”, and you will learn how to transform them into assets. You will also be provided with useful tools you can use in your daily inventory process. Come join us at this event and learn how to get “un-stuck” in your recovery!
