Appendix A – How the Conference Operates

How the Conference Operates

Generally speaking, the General Service Conference follows *Robert's Rules of Order*, and proceeds on as informal a basis as possible consistent with the rights of all concerned. It is important to remember that the purpose of rules of order is to make it easier for the Conference to conduct its business; rules exist to allow the Conference to do what it needs to do to carry out the will of the Fellowship by reaching an informed group conscience. Over the years the Conference has adopted some exceptions to *Robert's Rules*, which help it to proceed more closely in accord with the spirit of A.A. Tradition.

Conference Quorum

A Conference quorum — two-thirds of all registered members — is required to conduct Conference business.

Committee System

To the extent possible, important matters to come before the Conference will be handled via the "Committee system." This assures that a large number of questions can be dealt with during Conference week. Members are encouraged to trust the process. Each Committee has considered carefully the items before it and presents its recommendations to the Conference as a whole for acceptance or rejection. Recommendations of Conference committees are automatically motions that have been made and seconded. Members are asked to refrain from spontaneously amending the work of the Committee; there are no "friendly" amendments under Robert's Rules.

Substantial Unanimity

All matters of policy (Conference Advisory Actions) require substantial unanimity, that is, a *two-thirds majority*. Any actions, including amendments, that affect an Advisory Action, or motions that might result in such an action, also require a *two-thirds majority*. Because the number of members present in the hall during the week of Conference varies from time to time, the phrase "two-thirds majority" is taken to mean two-thirds vote of the Conference members voting, as long as the total vote constitutes a Conference quorum.

Minority Opinion

After each vote on a matter of policy, the side which did not prevail will always be given an opportunity to speak to their position. If the motion passes with two-thirds vote, the minority may speak. If the motion receives a majority vote, but fails to pass for lack of a two-thirds vote, the majority may speak.

Remember that saving "minority opinions" for after the vote, when there is no rebuttal, is a time-waster, for it can force the Conference body to reconsider a question that might well have been decided the first time around if it had been thoroughly examined from all sides.

General Rules of Debate and Voting

(Agreed to at the beginning of each Conference)

- People who wish to speak line up at the microphones and address their comments to the chair.
- Each person may speak for two (2) minutes.
- No one may speak for a second time on a topic until all who wish to have spoken for the first time.
- Full discussion of a recommendation should take place before each vote.
- Everyone is entitled to express his or her opinion. However, if your perspective has already been stated by someone else, it is not necessary to go to the mike and say it again.
- Our experience is that premature actions such as amending motions early in the discussion or hastily calling the question can divert attention from the subject at hand, confusing and/or delaying Conference business.

Motions Made During Conference

When making a motion, come to the microphone and address the chair. There are various types of motions we use to help reach an informed group conscience. The specific rules governing each are on the next page.

Tabling a Motion

Tabling a motion postpones discussion to a later time during the same Conference.

Motion to Recommit

The motion to recommit returns a motion or proposal to the respective trustees' committee or appropriate corporate board for further consideration. A motion to recommit must be seconded, is debatable and can be amended.

Calling the Question

Calling the question brings debate to a halt while Conference members decide whether to proceed directly to a vote (the question) or go on with the debate.

Reconsideration

A motion to reconsider a vote may be made only by a member who voted with the prevailing side, but it can be seconded by anyone. If the majority votes to reconsider, full debate, pro and cons, is resumed.

Floor Actions

It is possible for a Conference action to come from the floor, but any matter which falls within the scope of a Conference committee ought first go through that Conference committee, so that the topic may receive due consideration. Floor actions may be introduced at any time during the Conference except at the Sharing Sessions. Any floor action regarding a piece of committee business that has not yet been concluded will be considered out of order. When a floor action is to be heard, its maker will be given two (2) minutes to state the rationale behind the action, after which the chair shall ask if there is a motion that the Conference decline to consider the floor action.

Due to concerns about the time constraint limitations regarding the amount of business that can be managed during the 70th Virtual General Service Conference there is an update to the Floor Actions process this year as follows:

The trustees' Committee on the General Service Conference approved a motion to allow **Floor Actions** during a specified period of time at the end of the Conference and that each will be considered for a vote to decline. If it is not declined it will automatically be forwarded to the Trustees Committee on the General Service Conference for consideration.

Declining to Consider a Floor Action

A motion to decline to consider a floor action is made without comment.

Appendix D – Computer Use Policy

Computers assigned to officers, committee chairs or assembly members at large, when deemed necessary by the Area Chair will be subject to reading and understanding the computer usage policy outlined below.

It is mandatory that prior to release of equipment, a form affirming receipt of same will be completed. The form will be so arranged to facilitate checking out equipment from the Finance Committee, while transferring from past user to current user. The form will have spaces for serial numbers that must be filled out in order to enable the Finance Committee to accurately track the location of specific equipment.

Computers, which are North Florida Area property, are limited in use solely for purposes of the Change of NFAC preferred software NFAC. It will be agreed by trusted servants that preferred or personal software will not be installed on NFAC equipment, thereby compromising possible errors between dissimilar file formats.

All documents created for, or containing official business of the NFAC will be on the current preferred software of the NFAC. To this end, documents will be cross compatible. Data on computers shall be considered the intellectual property of NFAC therefore falling under the ultimate stewardship of the Finance Committee.

As the NFAC is compelled to upgrade software, care must be taken to save copies of the software for archival purposes. It is not prudent to rely entirely on "reverse" compatibility: for opening existing files. Hardware, software, and data files require climate control. Hardware is susceptible to electronic damage and data corruption. Software is subject to physical damage and/or data loss.

Historically, the NFAC has intentionally selected the simplest software to complete the job at hand. The purpose being to make service positions where computer use is necessary to be available to as many assembly members as possible. Should the preferred software be changed, updated copies of old software shall be implemented into the NFAC archives for simplest method of opening backed-up documents or originals off disk.

Appendix E – Computer Sign Out Sheet

I, the undersigned do hereby declare that I have read, understood, and will adhere to the NFAC computer use policy. I understand all the responsibilities within the policy and will perform them bound by this document and the role of Trusted Servant for the NFAC.
